Authorship Declaration

I, Ryan O'Flaherty, confirm that this dissertation and the work presented in it are my own achievement.

Where I have consulted the published work of others this is always clearly attributed;

Where I have quoted from the work of others the source is always given. With the exception of such quotations this dissertation is entirely my own work;

I have acknowledged all main sources of help;

If my research follows on from previous work or is part of a larger collaborative research project I have made clear exactly what was done by others and what I have contributed myself;

I have read and understand the penalties associated with Academic Misconduct.

I also confirm that I have obtained informed consent from all people I have involved in the work in this dissertation following the School's ethical guidelines.

I would like to thank my cat, dog and family.

1 Title of section would go here

You can fill out sections as you please.

Most of the formatting is taken care for you but you can add this yourself as you please.

1.1 Title of subsection would go here

Or have sections that are relevant to your main body of work above but warrant there own section. Both - with numbering would be entered into the Table of contents.

1.1.1 Overview Of Project Content and Milestones

This is a sub sub section with a list of bullet points.

- A working X, that will be used for this investigation.
- Investigation of current tools and their potential use during an investigation of X .
- Programming of X with related frameworks Y and Z.
- That is all.

2 Chapter 2

And so on for each of the chapters. The template automatically starts new chapters on a new page. The associated guidelines tell you what the available styles do and also how to structure a report. There is a section break on this page that you should be careful NOT to delete otherwise the references and appendices will be numbered continuously with the rest of the document.

3 Additional Information / Knowledge Required

Experience with Linux and managing Virtual machines, networking. So on and so forth...
